

Macroeconomic Management and FDI Competitiveness of Bangladesh: A South Asian Perspective

G M Javed Anwar
Dr Mohammad Ziaul Hoque

Abstract

This paper analyses the macroeconomic fundamentals of Bangladesh to see for their impact on the FDI pattern and flows in Bangladesh and competitive attractiveness in comparison with other South Asian nations. The study covers the period from 1996 to 2008 and it recommends a strong regulatory governance initiative in both absolute and relative terms towards a stronger global competitiveness of Bangladesh in generating international fund flow.
